Professional Summary:

Visionary and methodical Senior Technical Architect with 10+ years of experience delivering enterprise-grade automation and digital transformation solutions. Specialized in Microsoft Power Platform, AI-driven orchestration, and secure, scalable architecture across industries. Proven track record of leading cross-functional teams, integrating cloud-native services, and building modular, auditable systems that align with business goals and compliance standards.

Microsoft Certified across PL-900 to PL-600, with additional credentials in cybersecurity and project management. Known for blending hands-on technical depth with strategic leadership to deliver high-impact, future-ready solutions.

Core Competencies:

- **Power Platform Architecture:** Canvas & Model-Driven Apps, Power Automate, Power BI, Power Pages, Virtual Agents
- **Enterprise Automation:** End-to-end workflow orchestration using containerized microservices and cloud-native tools
- **Solution Design & Delivery:** Scalable, secure, and upgrade-ready implementations across business verticals
- **Governance & Compliance:** Role-based access, lifecycle management, and audit-ready automation pipelines
- **Client Engagement:** Workshops, requirement gathering, solution demos, and stakeholder alignment
- **Team Leadership:** Mentoring, performance management, and cross-functional collaboration
- **DevOps & Integration:** CI/CD pipelines, REST APIs, cloud functions, and secure data connectors

Key Skills:

- **Automation & AI Tools:** n8n (since 2020), Docker (since 2013), Node.js (since 2009), Claude (since 2023), Cursor (since 2023), Windsurf (since Nov 2024), MCP Framework (since 2024)
- **Programming Languages:** Python, JavaScript, TypeScript, C#, Java, C++, HTML, XML, DHTML

- **Workflow Automation:** Power Automate, Azure Logic Apps, containerized orchestration pipelines
- **Data Integration:** Dataverse, SQL Server, SharePoint Online, Cosmos DB
- **Analytics & Visualization:** Power BI, Power Query, embedded dashboards
- **Security & Governance:** Role-based access control, audit frameworks, environment governance
- **Cloud & DevOps:** Azure Functions, CI/CD pipelines, Docker Compose, multi-cloud integration (Azure, AWS, GCP)
- **Microsoft 365 Integration:** Teams, Outlook, SharePoint, Excel connectors
- **Lifecycle Management:** Continuous enhancement, version control, upgrade readiness

Professional Experience:

Team Lead – Power Platform Architect with ACL – Consultium Ventures Pvt Ltd. (Contract)

From February 2025 – August- 2025 (06 Months)

- Designed and deployed enterprise automation pipelines integrating Power Platform with containerized backend services.
- Architected AI-assisted agents for approvals, data processing, and analytics workflows.
- Led governance implementation across environments with role-based access and audit controls.
- Delivered scalable solutions with embedded analytics and cross-platform integrations.

Team Lead Power Platform Developer with Advanta Global Service Pvt Ltd.

From Jan 2019 – Jan 2024 (60 Months)

- Spearheaded Power Platform implementations for enterprise clients, integrating with cloud services and business systems.
- Introduced orchestration frameworks to streamline automation and reduce manual interventions.
- Delivered embedded analytics dashboards for leadership insights and operational visibility.
- Managed full SDLC: requirement analysis, solution design, testing, deployment, and hypercare.
- Led a team of developers and analysts, ensuring timely delivery and continuous improvement.

Team Lead with SSR Pvt Ltd

From April 2014 – Dec 2018 (56 Months)

- Engineered business applications using SharePoint, InfoPath, and SQL Server.
- Automated workflows using Microsoft Flow and Logic Apps post-GA release.
- Improved reporting accuracy and turnaround time through scalable application design.
- Implemented governance policies and trained teams on early Power Platform adoption.

Technical Skills:

Platforms & Frameworks: Power Platform (Power Apps, Power Automate, Power BI, Power Virtual Agents, Power Pages), Microsoft 365, Azure Functions, Logic Apps

Automation & AI Stack: n8n (since 2020), Docker (since 2013), Node.js (since 2009), Claude (since 2023), Cursor (since 2023), MCP Protocol (since 2024), Windsurf (since Nov 2024)

Integration & Data: REST APIs, Custom Connectors, Dataverse, SharePoint, SQL Server, Cosmos DB

Programming: Python, JavaScript, C#, Java, C++, HTML, XML, DHTML

Security & Governance: Role-based Access Control, Data Traceability, Environment Governance, Workflow Auditing

Certifications:

- Microsoft Certified: Power Platform Fundamentals (PL-900)
- Microsoft Certified: Functional Consultant Associate (PL-200)
- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- Microsoft Certified: Developer Associate (PL-400)
- Microsoft Certified: RPA Developer Associate (PL-500)
- Microsoft Certified: Solution Architect Expert (PL-600)
- Jira: Project Management with Jira
- Trello: Project Management with Trello
- Cisco: Introduction to Cyber Security By Cisco

Education:

- B.Sc. in Information Technology, Mumbai University, 2014
- H.S.C (Science), Maharashtra Board, 2008
- S.S.C, Maharashtra Board, 2004
